

Trinity Christian School Association's Belief, Mission and Vision Statements

Belief Statement

Trinity Christian School Association's beliefs are as follows:

- Every single child is important to God, and all can be helped to learn and experience success.
- Our students have the right to equitable access of a quality Christian basic education to meet their diverse needs.
- All students are modifiable and can experience change in their learning potential. Therefore, they are responsible to participate fully in their own educational achievement.
- Mediated Learning involves every child, including those with severe needs. It is based on intellectually challenging the child in a safe and caring learning environment.
- Our programs must contribute to the spiritual, intellectual, physical and emotional dimensions of the student.
- Parents and guardians must be involved in meaningful decisions about their child's education.

Mission Statement

The mission of Trinity Christian School Association is to ensure that students have the opportunity to acquire God directed knowledge, skills and attributes. These in turn should enhance their potential to become self-reliant, responsible, caring and contributing members of society.

Vision Statement

A Christ-centered education enabling each student to reach their maximum potential.
